Skating Analysis

AFTER COMPLETING THIS COURSE, YOU WILL BE ABLE TO

Use the "Skating Analysis" based on AI software, connect and configure cameras to record video, determine the required key positions, generate reports. Thanks to artificial intelligence, the program itself identifies deficiencies in riding technique. Your task is simply to record a video and send it for processing.

COURSE OUTLINE

- Start the program
- Basic program settings
- Camera settings
- Introducing basic functional units of the program
- Video recording
- Key positions
- Analysis of the positions
- Export, reporting
